BALL, John  Fairfax Co.  Survey 3 April 1742  146 acres
Warrant 24 March 1740  2 items

Assignee of Daniel French
To Captain Joseph Berry,

Whereas Daniel French of Prince William, Jr., has informed that there are about 400 acres and fifty rods of waste or ungranted land in the county of Prince William, joining to John New and Michael Reagan,

If desiring to have a survey thereof in order for obtaining a grant,

These are to empower you, Captain Berry, to make a just, true, and accurate survey of the waste lands, provided this be a just ward and that you must do so. And to make a correct plot thereof, describing the course and distances of the course, also of bounding lines of every person's land, including or adjacent. It is when you join not on any public lines which you are to be when you join, then you are to continue if found so as to make a plot as near a square or parallelogram as may be. Return whereof with this warrant. You are to give into my hand this 24th day of March, 1740.

Anne Dott 1740
