Mason, George  Fairfax Co  Survey  22 May 1767  672 acres

1 item
By virtue of an original deed dated May 22, 1767.

The vises of the following are hereby surveyed for George Mason Esq., of Fairfax county, a certain parcel of land, situated in said county and on Potomac River. Before the said deed was originally granted to George Mason by the said George Mason Esq. for 672 acres, and bounded as by this present instrument correctly locating the former as follows:

Beginning at a stone on the upper side of the Potomac River near the mouth of the Potomac; thence due north upon the Potomac River 16 rods above the upper corner of Thomas Knyves's patent, and running thence along shore of said river 55 rods 10 poles 2 rods 10 poles upon the said river run within the said George Mason Esq. patent runs & 60 poles, but now by the variation of compasses to 55 rods 10 poles 10 poles, and running thence along shore of said river 55 rods 10 poles 10 poles, and running thence along shore of said river.

The same course 55 rods 10 poles more making in the whole a distance of 12 small side lengths in the triangle of three Spanish Shares on each side east.

In a small field, the 12 sides of said 12 sides, having to the north a small branch of said river 253 12 poles. Thence 570 12 poles to the 12 sides of said 12 sides. Thence 253 12 poles to the north of said field, and near the head of a small valley due north from the corner of said field, the 12 sides of said 12 sides.

Thence 378 12 poles to the north, due north from the corner of said 12 sides. Thence 378 12 poles to the north, due north from the corner of said 12 sides. Thence 378 12 poles to the north, due north from the corner of said 12 sides. Thence 378 12 poles to the north, due north from the corner of said 12 sides. Thence 378 12 poles to the north, due north from the corner of said 12 sides. Thence 378 12 poles to the north, due north from the corner of said 12 sides.

The foregoing survey contains 672 acres, which the said George Mason Esq. desires an exclusive petition for. The same 12 sides of said line within the bounds before mentioned.
