To the year 1766 Mr. Roeb. Scott of Dunmoree mortgaged to me some Acres of Land amongst others an Entry of 100 Acres or thereabouts in the County of Finnflinmich, which I am sure Mr. Scott informed me there were some acres therein conveyed by Mr. Edjey, where he has entered a Deed, it represents to me that I was entirely owing to the regard of the Surveyor that I may not receive for them £100 which he expressly promised to have done. At Mr. Scott's Request I should give another copy of the said with the name of the Officer that a Patent may not granted. Before Mr. Scott has motion to attend, o the matter examined before his Lordship.

I beg my compliments to his Lordship in your honor and request. 

Your Most obedient 

Mr. Humphrey Clarke

I was informed with the accuracy wishes, in my presents this 18th day of June 1769.

Some years ago, I obtained out of your office a Warrant for a field of waste land in this county, which was directed Mr. Nott to survey; I imagined he had done the same as I made a return to your office, but I have reason to think that one Mr. Peake in parish county had a Warrant for the same, I have made it survey of it by Mr. Elton.

As I think I have a prior claim to the said land, I send this to acquaint your lordship not to grant a Patent to said Peake until you have an opportunity of hearing my claim, which I will be ready to do at your office, upon the common notice to attend being given. I shall entirely rely on your lordship's well known kindness of Justice to decide the matter in dispute between us.

Yours with the profoundest respect,
